

# PRECIOUS MOLOI

## IT & Software Development Graduate

Johannesburg, Gauteng, South Africa | 071 510 9402 | precioustumi38@gmail.com | GitHub: [github.com/PreciousMoloi](https://github.com/PreciousMoloi)

---

### PROFESSIONAL PROFILE

Final-year Diploma graduate in Information Technology in Software Development from IIE Rosebank College, with an academic average of approximately 79.63% and a broad foundation spanning programming, databases, systems analysis, information security, operating systems, web development and IT project management.

Practical experience developing technology solutions for real user problems, including financial management, community safety, conversational applications and cybersecurity awareness. Combines technical versatility with analytical thinking, adaptability, attention to detail and strong communication skills.

Open to opportunities across software development, IT support, systems analysis, networks, data/databases, information security and IT project coordination, with a genuine interest in continuous learning and growing into a specialised IT career path.

### EDUCATION

#### IIE Rosebank College — Johannesburg

*Diploma in Information Technology in Software Development | NQF Level 6*

Academic Average: Approximately 79.63%, with multiple modules passed with distinction

**Relevant coursework:** Programming | Information Systems | Database Development | Systems Analysis & Design | Information Security | Operating Systems | Web Development | IT Project Management | Human-Computer Interaction

#### National Senior Certificate (NSC) — November 2023

Met minimum requirements for admission to diploma/higher-certificate study

### SELECTED PROJECT EXPERIENCE

#### CoinKeeper Budget Tracking Application

- Developed a budgeting application to help users monitor and manage personal finances.
- Applied application logic, user-interface design and data-management concepts.

#### Community Safety Application

- Developed a community-focused application addressing practical communication and safety needs.
- GitHub: [github.com/PreciousMoloi/CommunitySafetyAppProject](https://github.com/PreciousMoloi/CommunitySafetyAppProject)

#### ChatBotApplication

- Developed an interactive chatbot application demonstrating conversational interaction and application logic.
- GitHub: [github.com/PreciousMoloi/ChatBotApplication](https://github.com/PreciousMoloi/ChatBotApplication)

#### Cybersecurity Awareness Chatbot

- Developed a desktop application using C#/WPF/XAML incorporating chatbot interaction, quizzes and activity logging.
- Applied information-security concepts to an interactive technology solution.

#### BudgetWise / SmartSpend

- Designed a personal budgeting application concept incorporating gamification and intelligent financial-support functionality.

### EXPERIENCE

#### Moroka Plumbing — Administrative / Business Support & Technical Documentation

- Prepared professional quotations, invoices and business documentation.
- Interpreted customer requirements and converted practical information into structured documentation.
- Developed communication, organisation, accuracy and accountability.

### PROFESSIONAL ATTRIBUTES

Analytical Thinking | Problem Solving | Learning Agility | Adaptability | Collaboration | Communication | Customer Focus  
| Initiative | Attention to Detail | Integrity
